Github Actions : setting up CI pipeline

→ CI / CD Pipeline

(Module)

```
def order ( a , b , c , d ) :
```

Module 2

```
def delivery(f, e):
    o = order( a, b, c )
    o . — —
```

Test:

Unit Test

Integration test

```
def square (num):
    return num * num
```

```
def test_square ():
    square(6) == 36
```
