SUMMARIZE

eg: Scaler

Term-ology: KPI

Key performance Indicator

North star Metric → placement rate → the most important metric

Level-1 → 2-5 less important: Connected to NSM
(PSP, Attendance, Mock Interview clearance rate)
Test Clearance rate

Level-2 → Granular metric for current actions ...

NSM :

Instagram → [MAU] → opened atleast once a month

Spotify / Gaana / Saavn → Time spent listening (in min) in a week / month

Airbnb → # bookings per month

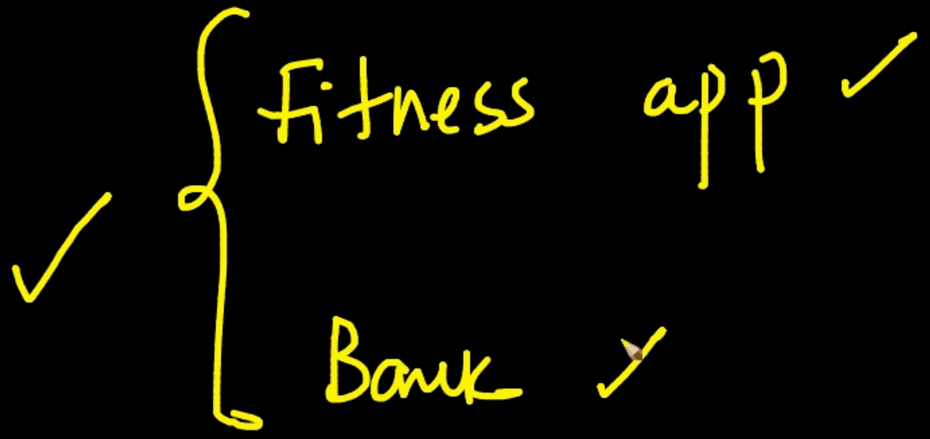

Quora → # questions answered per week / month

Structured way

NSM → Most important biz-metric

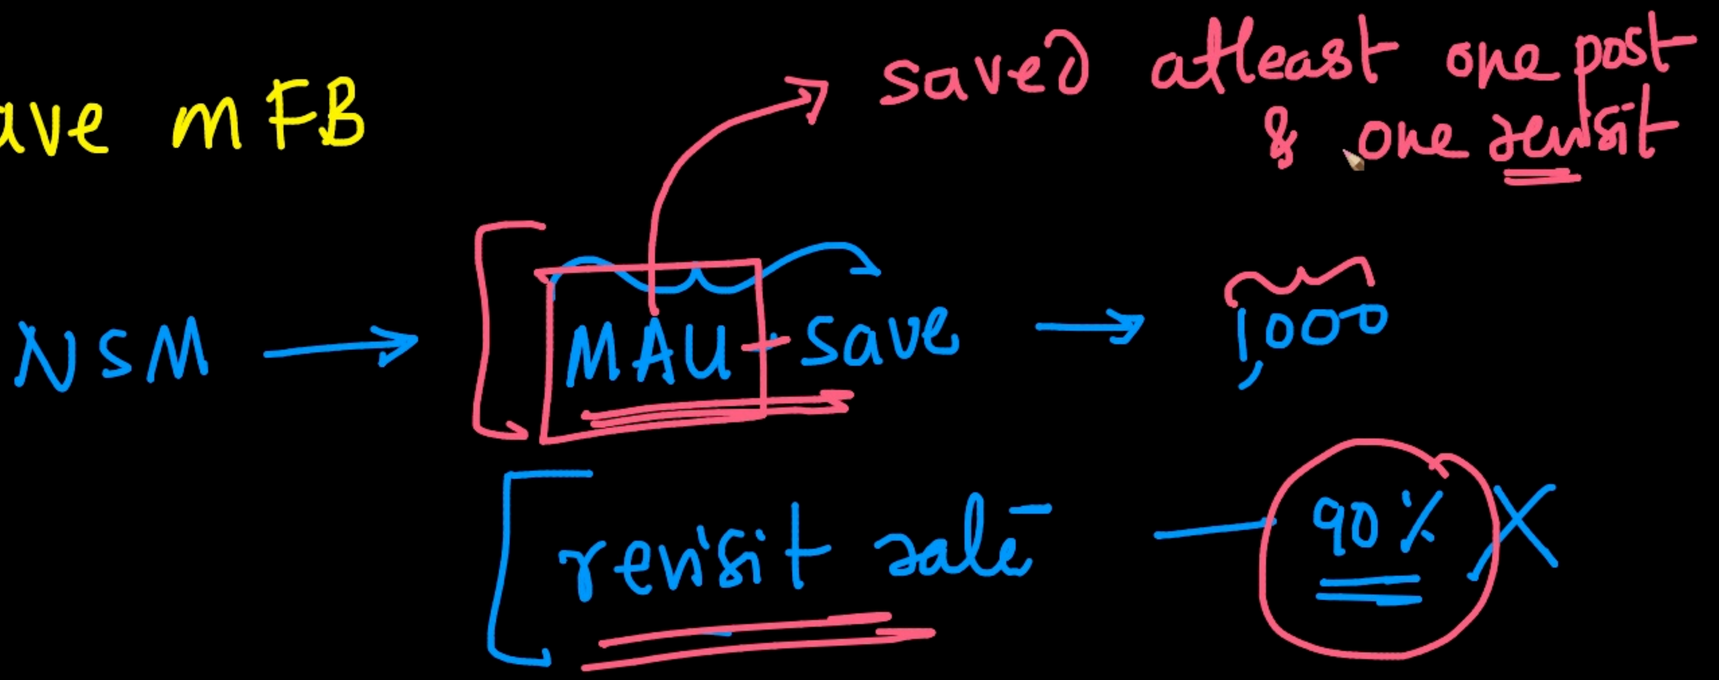

L1 → Activation; Engagement; Retention; Revenue ....

✓ L2 → each L1 can further be broken down → actions (Sub features)
- region - platforms
- time - Segment
